## **“Middle School Activities - Community Groups & CWCC (Community Worship & Creation Care)”**

The last time that KCMS had the opportunity to run our Community Groups was when our current 8th grade students were 5th grade students. It is a joy to mix these students together once again in 5th - 8th grade groups. This year, we are digging deeper into our school theme of Image Reflecting. This past week, students looked up scripture passages that described the characteristics of God. We pray together in these groups and work on building community across the grade levels. It also presents a unique opportunity for the students at any grade level to help lead the group.

Mrs. VanDyke has taken on leadership, along with her Encore class (CWCC), to help plan and run our Community Worship times and Community Group times. These students reach out to speakers and will eventually help lead the songs from the front. They have also chosen to continue working around school in Creation Care and have taken the lead on our recycling program across the building.

- **Joel Netz, Middle School Principal**
